

College Allocation System – Feature Overview

1. Student Portal Features

- View complete personal details including name, category, ranks, email, and mobile number.
- Search, filter, and select colleges and departments to create a preference list.
- Add up to 20 preferences and reorder them easily before submission.
- Lock preferences after the deadline—no further edits allowed.
- Check seat allotment results after each round of counselling.
- Choose one of the seat decision options after every round:
 - **Freeze**: Accept the allotted seat and exit further rounds.
 - **Float**: Accept the seat but still participate in further rounds for better options.
 - **Withdraw**: Leave the allocation process completely and give up the allotted seat.
- Search for round-wise opening and closing ranks for any college, department, and category.
- View the complete seat matrix with category-wise seat availability for all colleges and departments.

2. Additional Information Available to Users

- Round-wise opening and closing ranks are displayed for complete transparency.
- Seat matrix provides a structured view of college → department → category-wise seats.
